

POWERWALL

Powerwall is a home battery system that turns your home's solar panels into an all day resource – increasing self-consumption of solar – while also offering backup in the event of an outage. Powerwall enables more of your home's electricity use to come from solar, which enhances solar functionality and reduces energy costs.

Join the Energy Revolution

Store

Store unused solar in Powerwall instead of sending it to the grid

Power

Your home is powered by solar 24/7 and can even go off grid

Control

Monitor and control your home energy with the Tesla app

Protect

Your home is protected during a power outage
